Mr. Glenn Rostello  
3480 Martin Drive  
North Olmsted, OH 44070-3000

Dear Mr. Rostello:

Thank you for your inquiry about the best perennial plants to use along walkways. I have researched this topic and found several low-growing plants that will work well in our area.

| <u>Scientific Name</u> | <u>Common Name</u> |
|------------------------|--------------------|
| Achillea ptarmica      | Yarrow             |
| Artemisia              | Wormwood           |
| Geranium               | Geranium           |
| Oenothera              | Evening primrose   |
| Sedum                  | Stonecrop          |
| Trollius               | Globeflower        |

Each of the above plants is available at our Ohio Street garden center. Anyone who buys plants this month will receive a 10 percent discount. If more than 15 plants are purchased, we will deliver and plant them for a small fee. When we do the planting, the plant has a one-year warranty.

Please say hello to me when you visit our store.

Sincerely,

Harry Piper  
Owner
