- *The available Academic Majors for Yale are;*
- *Area, Ethnic, Cultural, & Gender Studies,*
- *Foreign Language,*
- *Biological & Biomedical Sciences,*
- *Multi/Interdisciplinary Studies,*
- *and Philosophy & Religion.*

# History

- *Yale's roots can be traced back to the 1640s, when colonist clergyman led an effort of establish a college in New Haven to preserve the tradition of European liberal education in the New World. This vision was fulfilled in the 1701, when the charter was granted for a school "wherein Youth may be instructed in the Arts and Sciences [and] through the blessing of Almighty God may be fitted for Publick employment both in Church and Civil State."*
- *Yale College survived the American Revolutionary War intact and, by the end of its first hundred years, had grown rapidly. The nineteenth and twentieth centuries brought the establishment of the graduate and professional schools that would make Yale a true university. The Yale School of Medicine was chartered in 1810, followed by the Divinity School in 1822, the Law School in 1824, and the Graduate School of Arts and Sciences in 1847, followed by the schools of Art in 1869, Music in 1894, Forestry & Environmental Studies in 1900, Nursing in 1923, Drama in 1955, Architecture in 1972, and Management in 1974.*
- *Today, Yale has matured into one of the world's great universities. Its 11,000 students come from all fifty American states and from 108 countries. The 3,200-member faculty is a richly diverse group of men and women who are leaders in their respective fields. The central campus now covers 310 acres (125 hectares) stretching from the School of Nursing in downtown New Haven to tree-shaded residential neighborhoods around the Divinity School. Yale's 260 buildings include contributions from distinguished architects of every period in its history. Styles range from New England Colonial to High Victorian Gothic, from Moorish Revival to contemporary. Yale's buildings, towers, lawns, courtyards, walkways, gates, and arches comprise what one architecture critic has called "the most beautiful urban campus in America."*
